"MOONLIGHTING": SEASONS ONE AND TWO" (1985-86 Naturally, Bruce Willis and Cybill Shepherd are arriving at the industry-wide TV-on-DVD party a little late. As Willis notes in one nicely done retrospective featurette, the chronically behind-schedule series only delivered five episodes in its initial six-episode order which "set the tone for 4 1/2 years of the show, because we never really completed our homework." Extras: Commentary by Willis, Shepherd, and Caron; production featurettes; deleted scenes and bloopers. (Lions Gate, \$49.98)
