"Moonlighting" Seasons 1 and 2"

As a midseason replacement when it premiered in 1985, "Moonlighting" - featuring Cybill Shepherd as an ex-model stuck running a detective agency and Bruce Willis as her wisecracking detective - had just six episodes, with 18 more for its second season. But the box set also has bloopers, deleted scenes, a gag reel, a two-part "Story of Moonlighting" and commentaries by Shepherd and Willis.
